Dr. Carey Martens started at SPMC June 10th and will be performing the first minimally invasive out-patient procedures to take place in the new medical center's procedure wing in the upcoming months.

Dr. Cary Martens, OB/GYN, Bringing His Medical Specialties to Summit Pacific Medical Center

Elma, Washington – Dr. Carey Martens, OB/GYN, has joined the staff at Summit Pacific Medical Center (SPMC). Dr. Martens specializes in minimally invasive gynecology and is skilled at treating many female ailments that come with age and/or childbirth. He began seeing patients June 10th and has already scheduled the first out-patient procedure to take place in the new SPMC procedure wing.

“We are very excited about this addition to our medical staff,” Renee Jensen, CEO shared, “Dr. Martens brings a much needed medical specialty and service close to home for the women of East Grays Harbor, and allows us to become even more of a medical home for our patients.”

Dr. Martens is not new to Grays Harbor. He has owned and operated Coastal Women's Health in Aberdeen since 2007. Martens will be working one day a week at Summit Pacific Medical Center and will continue to provide care at Coastal Women's Health the rest of the week. He is skilled in treating incontinence, overactive bladder, sexual dysfunction, painful intercourse, heavy painful periods, and pelvic organ prolapse. Dr. Martens also has hospital privileges at Grays Harbor Community Hospital. He is accepting new patients at SPMC and patients do not need a referral to schedule an appointment.
