Summit Pacific's Urgent Care Clinic to Open 7 Days A Week Starting July 8th

(Elma, Washington) – Summit Pacific Medical Center's Urgent Care Clinic will be opening seven days a week beginning July 8 2015. Summit Pacific's urgent care clinic is located within Summit Pacific Medical Center at 600 East Main Street in Elma. The clinic will now offer urgent care services Monday through Friday from noon to 8 p.m., Saturday and Sunday from 10 a.m. to 6 p.m.

Summit Pacific's Urgent Care Clinic began operating in February of 2015. The urgent care clinic provides walk-in appointments for patients suffering pains and discomfort associated with colds, flu, sinus infections, each aches and stomach ailments; minor sprains, possible breaks, wounds, burns and rashes; minor gynecological and pregnancy concerns (less than 20 weeks); and male urogenital concerns. Urgent care is not meant to take the place of an emergency department for those suffering a life or limb threatening situation; or that of routine visits with a primary care provider. If more emergent care is needed, staff will be able to escort patients immediately down the hall to Summit Pacific's 24/7 Emergency Department.

Patients coming to Summit Pacific Medical Center's Urgent Care, should check-in at the main patient entrance found off Main Street in Elma, and avoid using the Emergency Department Entrance. For more information, people are encouraged to call SPMC's main line at 360-346-2222 or visit their website at www.summitpacificmedicalcenter.org.
